LITO Basic Business Studies module

- LITO courses are carried out as the joint effort of nine Finnish universities
- targeted to students who are not taking the Finnish bachelor or master degrees in business sciences
- courses are 100% online
- you may choose which courses you take – each course gives you 5 ECTS
- no application for the study module is needed
- number of participants is limited only in the business simulation course

Learning objectives

After completing the LITO study module, you:

- understand how a company operates as a whole
- are able to evaluate your own role as an expert in the organization
- are able to apply the focal concepts of business and economics in your own job
- are able to solve problems as part of a diverse team

LITO studies also develop working-life skills, such as problem-solving and project management skills, self-direction and digital competence

LITO courses which can be taken in English in 2025-2026

	09.03.-13.05.2026 * pre-assignment 9.-16.3.26	27.01.-23.02.2026

Taking LITO courses

- all courses are 5-ECTS courses, i.e. they require some 135 hours of work
- you can take any number and combination of courses that best suits your interests and needs
- if you wish to have the LITO courses registered in your studies as a study module, you must take the Business Simulation course
- all LITO courses are organised on the DigiCampus learning platform (access the front page of the LITO module at www.lito.fi)
- **see the LITO Student Guide before course registration (available at www.lito.fi)**

Course registration

- register for a course at your home university in Finland when you are going to take the course

The registration period:

- registration periods are announced separately for each course and they may differ from the customary registration periods at your university -> check the dates as no late registrations are accepted!
