Welcome to study at LUT University!

Land of the curious

We are a community where curious people inspire curious people. The curious dive deep into their passion, and develop their thinking daily. Without curiosity, we cannot change the world. A curious person experiments, fails, and succeeds faster than others.

We address issues that matter to the world and that others may consider impossible to solve. Our campuses are located in Lappeenranta and Lahti, but our state of mind can be achieved anywhere.

Clean energy, water and air are life-giving resources for which we seek new solutions with our expertise in technology and business. We help society and businesses in their sustainable renewal.
